Hose Floats

(Product Code STDR - 3120)

Griffin-Woodhouse Hose Floats are manufactured from a polyethylene foam core coated by polyurethane elastomer skin. They are therefore highly durable, being resistant to impact, abrasion, UV degradation and chemical attack. Bumper strips are added for protection during installation and a keyway for location on the hose collar. Floats and reducers can be made to suit specific requirements but standardised as detailed to suit most arrangements.

Type	Nett Buoyancy (Kg)	Total Weight (Kg) in air	Dimensions (mm)		
			K.I.D	O.D	W
471	80	56	471	835	450
